Biggest Vessel of Navy, Flagship of Flying Squadron, With 1,300 Men Aboard, Will Take On Coal and Munitions at Newport

Admiral Cameron McRae Winslow gave "To The Sun, New York: orders to Capt. Thomas S. Rodgers. Ten minutes later the gray nose of the New York, flagship of the flying squadron, waiting for arrival of Col. Waller, United

Down the river she went and into the came from her by wireless that her en-lower bay. No one had an idea that she would stop this side of Newport, where she will take abound to readous and some an hour. she will take aboard torpedoes and some

It was just 8:30 o'clock when Rear by the navy radio:

navy built machinery and ships have the

The departure of the biggest ship in the United States may from the yard at Brooklyn yesterday morning was typically a part of the business of war.

It was just 8:30 o'clock when Rear compose the crew, of whom half are inexperienced men, with no training ships. The other half, though, is the pick of the navy, and Capt. Rodgers is confident that the two halves will soon be working as the two halves will soon be working as the two halves will soon be working as the two halves will soon as she reached an anchor.

Compose the crew, of whom half are inexperienced men, with no training except what they have had on training ships. The other half, though, is the pick of the navy, and Capt. Rodgers is confident that there were few moving farewells. Those had been said before.

As soon as she reached an anchor.

However, every one found please.

As soon as she reached an anchor.

Women Wave Good-by to Crew.

In the group on the dock were the families of the officers and a number of families of the officers and a number of when the gates were open to all was unfamilies of the officers and a number of

her way before, consequently there was some question as to how they would perform. They made good at the start, as all Brave Rain to Wave Good-by-Engines and Machinery of Dreadnought Work Well.

she will take aboard torpedoes and some The engines, 21,800 horse-power, had the men in the yard who have watched when the gates were open to all was uncoal, so when she was seen to stop shortly been "turned over" while the ship was the building of the dreadnought, among usually large considering the weather.

minutes later the gray nose of the New York grounded. We are now waiting for arrival of Col. Waller, United states Marine Corps. He sexpected the corps. He sexpected the first grounded was and to dress on the flagship of the devision from the driving repet taken aboard in navy turns. For the first time her big engines had chance to show what they could do. Down the river she was no warm the dreadnought sand a faded from what they could do. Down the river she was not come from her by wireless that her of powers and the dreadnought sand as a broken pole on the wireless tower which was add to have hit a girder on Brooklyn Brings.

The New York grounded we are now waiting for arrival of Col. Waller, United states Agrine Corps. He sexpected the sexpected while are about ready for active service was all to have hit a girder on Brooklyn belong to the flying squadron, went into dry dock yesterday to have her bottom scraped and painted. She was remarks ably clean considering her recent service and the waster line is 565 feet and he again to friends and the commander of the flying squadron, went into dry dock yesterday to have her bottom scraped and painted.
